## Snow Leopard (Mac) and Windows 7 (PC): great new operating systems

Both Microsoft and Apple have improved their operating systems. Dave can help you find the right computer to take advantage of these new features or help you optimize the one you already have. Feel free to discuss your upgrade options with him. Working with Dave helps you avoid the franchise stores with their high overhead, sales quotas and aging inventory. Dave has been making "Mouse Calls" on Mac and PC computers since 1990. Experience counts.
