What a tremendous difference Jeff has made! My mom has a complicated TV setup with numerous video sources.

When Sunflower Cable went digital, her setup needed a complete reprogramming. Since I live in Durango, CO, I started looking for someone local. I found Jeff thru a referral from Kief's (when Kief's said my mom's TV setup was too complicated for them to work on).

I couldn't be happier that we found Jeff. He updated the systems, installed some much needed upgrades, and trained my mom on the new remote. Since then, we call in Jeff whenever mom has questions. It's so much easier than trying to diagnose and fix over the telephone. He is very responsive and is super patient when training on new systems.

I recommend Jeff for new installs, maintenance, upgrades, and, especially to hook up your parents with awesome TV. They deserve it!
